PROFESSIONAL SUMMARY

Passionate Web Developer with expertise in Frontend Development and strong knowledge of Data Structures & Algorithms (DSA) and Python. Adept at building dynamic, responsive, and user-friendly web applications using modern frameworks and technologies. Seeking opportunities to contribute technical skills to innovative projects.

EXPERIENCE

07.2024 - 08.2024   **Web Development Intern**
Codsoft, Online
I have done a internship at codsoft where there assigned me a take. If I done there give certificate.

RELEVANT EDUCATION

2020 - 2020   **SSC in X**
New world high school, Khammam, India
Results: (GPA: 100%)
- I completed my schooling at New World High School, Khammam, where I developed a strong academic foundation. With dedication and hard work, I achieved 100% in my Class 10th board exams. My schooling years helped me build discipline, problem-solving skills, and a keen interest in technology.

2020 - 2022   **Intermediate in XI-XII**
Sri Chaitanya jr. College, Khammam, India
Results: (GPA: 97.2%)
- After completing school, I pursued Intermediate at Sri Chaitanya Junior College, Khammam, where I focused on academics and secured 97.2%. These two years played a crucial role in strengthening my analytical thinking, time management, and ability to learn complex concepts efficiently.

2020 - Present   **Bachelor of Technology in Computer Science and Engineering**
Dhanalakshmi Srinivasan University, Trichy, India
Results: (GPA: 80%)
- Currently, I am in my 3rd year of B.Tech at Dhanalakshmi Srinivasan University (DSU), Trichy, Tamil Nadu. My graduation journey has been exciting, allowing me to explore technology, coding, and web development. I am gaining both theoretical knowledge and practical experience to build a strong career.

Web development Intership - Codsoft, 08.2024

PROJECTS

My portfolio

[Link](#)

- Developed my own animated and interactive portfolio website to showcase my web development skills, projects, and technical expertise. Features include dark/light mode, multiple color themes, animated elements, and dynamic project displays. Built with HTML, CSS, JavaScript, and custom styling for a personalized, modern UI.

Data Scientist Portfolio

[Link](#)

- Designed and developed a fully responsive and interactive portfolio website for a data science professional. The site highlights key skills, projects, certifications, and professional experience with a clean UI and user-friendly layout. Integrated data visualizations, resume download, and contact functionalities to enhance user engagement. Technologies used include HTML, CSS, JavaScript, and Bootstrap.
